## SS. Peter and Paul High School Students Advocate for Life

*by Alexander Pool—Theology Department*

Recently, 32 of our high school students from the **Pro-Life Group** attended the 38th annual **March for Life** in Washington DC on January 24<sup>th</sup>. We had the privilege of attending the Youth Mass at the Verizon Center with over 20,000 other youth and adults. They were definitely inspired by so many people who share their same sentiments on the dignity and sanctity of life.

The March itself was incredible. With over 250,000 attendees, it really made an impression on our students. For our students at Saints Peter and Paul, it was a strong reminder of how precious life is from conception to natural death.

I am very grateful for all the hard work our students do for the pro-life cause. It is an inspiration to so many who see their wonderful enthusiasm
